CEL-FI by NEXTIVITY

The Most Advanced Technology for Improving Cellular Coverage for Enterprise

- Performance Leadership
- Ease of Install
- Leaders in Value
- Fast Set Up
- Carrier Grade Approved

Smart Cellular Coverage, Clearly Better

The Cel-Fi product line features the best solutions available for addressing the universal challenge of poor cellular coverage in enterprise environments. Built for carriers, integrators, and IT professionals, the solutions are unconditionally network safe, carrier-approved for voice and data, and deliver industry-leading performance across large coverage areas.

CEL-FI QUATRA

In-Building Cellular Solution

- Scalable Coverage: Up to **11,600 m²** (QUATRA 4000e) or **4,700 m²** (QUATRA 1000) per Network Unit
- 5G/4G/3G Voice and Data: Carrier-Grade Solution up to 100 dB Max System Gain
- Ethernet/Cat5 Based Distribution with Fiber Expansion Option
- Single or Multi-Carrier Solutions
- Small Cell or Off-Air Donor
- Monitor and Install with Innovative Cel-Fi WAVE Portal

CEL-FI SOLO

Smart Signal Repeater

- Coverage: Up to **3,000 m²** per Unit
- 5G/4G/3G Voice and Data: Carrier-Grade Solution up to 100 dB Max System Gain
- Built-in LTE Modem Variation Available for Advanced Remote System Monitoring and Management via Cel-Fi WAVE Portal
- Simple Set Up
- Single and Multi-Unit Installation Options
- Customize Installation with Innovative Cel-Fi WAVE App

CEL-FI GO

Smart Signal Repeater

- **GO G41**: Coverage Up to **3,000 m²** per Unit
- **GO G32/G31:** Coverage Up to **1,500 m²** per Unit.
- 5G/4G/3G Voice and Data: Carrier-Grade Solution up to 100 dB Max System Gain
- TDD/FDD Coverage with Support for Dynamic Spectrum Sharing (GO G41 Only)
- Simple Set Up and Carrier Switching
- Single and Multi-Unit Installation Options
- Customize Installation with Innovative Cel-Fi WAVE App

The Technology & Tools Behind Cel-Fi

IntelliBoost® Chipset

Engineered to deliver industry-leading performance, Nextivity's propriety IntelliBoost® Chipset is at the heart of every Cel-Fi product.
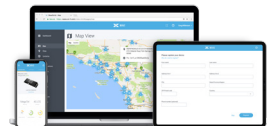

Cel-Fi COMPASS

Perfect for indoor or outdoor environments, Cel-Fi COMPASS is a smart RF handheld scanner for designing, installing, and optimizing Cel-Fi systems.

Cel-Fi WAVE Software

Through the web-based Cel-Fi WAVE Portal or WAVE and WAVE PRO applications, installers and building owners can manage and monitor their Cel-Fi systems remotely. The WAVE Portal is accessible from any web browser, while WAVE and WAVE PRO are available for iOS and Android devices.
