

The Cel-Fi RED Emergency Power-Off Switch (EPO) instantaneously shuts down Cel-Fi ERCES public safety systems from a single point, eliminating the risk of combustion caused by electricity or static. The EPO is designed to prevent inadvertent operation and can be installed in any location designated by the local Authority Having Jurisdiction (AHJ). In addition to being NEMA 4 rated and complying with NFPA and IFC fire codes, the EPO features PoE architecture for a quick installation and configuration with Cel-Fi QUATRA RED or SOLO RED installations.

EPO

Key Features

- Aesthetically pleasing design
- Easy to install using CAT5e cable
- Intuitive Operation

Use Cel-Fi WAVE PRO mobile app for seamless integration and configuration of the Cel-Fi RED product line.

Network Unit Physical Specifications

HEIGHT	WIDTH	DEPTH	WEIGHT
3.94 in	3.70 in	5.51 in	.55 lb

Connections

Switch Type	Normally Open
Output Connector Type	RJ45
